The horse which Chief Sinclair detained at the Johnston & Gamble stable Thursday forenoon was examined in the afternoon by Dr. O. E. Barr, who did not discover any of the disabilities suspected when the woman driver of the steed was asked to put her horse in the livery-pending a conference with officers of the humane society.

The veterinarian noted that the horse was unsound, but described certain sores and other openings as superficial wounds which might be easily healed.

He suggested that the horse be returned to the home farm in Plainfield and there cared for until its condition should improve.

A dull season for racing in Vermont is in prospect and local turf men who in years past have been active in promoting the interests of the Vermont circuit will transport their horses elsewhere before the season is at its height.

The reason for the quietus in Vermont racing circles is the board of health restrictions on public gatherings, which has had the effect of making uncertain the status of many agricultural fairs.

Indirectly the war is affecting the racing game. W. S. Page plans to ship his string of horses to Maine in the near future and after a sojourn in the Pine Tree state they may be shown elsewhere in New England.

F. A. Slayton will race his favorites mostly in Canada, although he may swing around to the Maine circuit later in the season.

Black Cat Hosiery

Warm weather increases the demand for more hosiery. Poor qualities are an extravagance. Best grades are none too good. Light weight often decreases the life of a pair of hose. If you buy Black Cat light weights you may expect a good wear. They are warranted to do that. Black Cat Hose to-day are the strongest colors in hosiery on the market. If all this appeals to you why then buy Black Cat Hosiery and enjoy the worth of every penny of your money.

Munsing Underwear
